Application Notice for the PF7777 on Cummins[®] 5.9 Liter Turbo Diesel Engines

Cummins has upgraded the performance specifications for the fuel filter on Dodge Ram applications using the 5.9 liter turbo diesel engine. These specifications are applicable for July 2002 through 2006 model year engines and are intended to improve the durability of the fuel injectors.

Engines produced prior to July 2002 are not affected by this new specification. The PF7777 will continue to be applied to 2000 through June 2002 models. The PF7777 meets the performance requirements established by Cummins for these earlier engines.

Please see the table below for the current Baldwin fuel filters for these applications.

2000 - June 2002 Cummins Turbo Diesel Applications	July 2002 - 2006 Cummins Turbo Diesel Applications
PF7777	PF7977
